Public Notice

As a result of the Governor's recommendation and the Legislature's decision to make the Secretary of State's office a fee funded agency, the Secretary of State's office will increase fees effective September 1, 2003.

Historically, the Secretary of State's office operated on a split-funding basis. That funding was cut by 50 percent this year, and starting in fiscal year 2005, the office will receive no state general fund money.

The Secretary of State's office has spent the past six months doing a comprehensive review of transactions and fees. In every case, the new fee charged reflects the statutory requirement of the law, as well as the lowest fee possible to perform the duties of the agency.

For specific legislative details on the fee increase, refer to 2003 Senate Bill 239. The new fee schedule is available on the Secretary of State's Web site, www.kssos.org. For more information, contact the Secretary of State's office at (785) 296-4564.

Notice Concerning Property Tax Acceleration

I have complied with the requirements of House Bill 2397 New Sec. 15(a) and have reviewed and considered the applicable information and advice. Pursuant to House Bill 2397 New Sec. 15(b), I hereby publish notice that it is in the best interest of the state to implement the provisions of House Bill 2397, an act concerning property taxation; relating to time for payment; adjusting certain state property taxes; amending K.S.A. 12-1678a, 72-6431, 76-6b01, 76-6b04, 76-6b11, 79-2004, 79-2004a, 79-2017, 79-2201 and 79-5109 and K.S.A. 2002 Supp. 79-6a04, 79-2101 and 79-4521 and repealing the existing sections.

This acceleration of property tax collections will provide a one-time benefit to the state general fund of \$179.0 million and will ensure that the FY 2004 budget can be implemented as approved. Without this increase, the projected FY 2004 ending balance is not high enough to protect against mid-year budget reductions if revenue falls

below expectations.

Facility Name: Pester Burn Pond Remediation Site

Facility Location: 1835 N. Topeka St., El Dorado, KS 67042

Kansas Permit No. I-WA09-PO11 Federal Permit No. KS0093131

Legal: SW1/4, S26, T25S, R5E, Butler County

Facility Description: The proposed action is to reissue an existing permit for operation of an existing groundwater remediation project and for the intermittent release of contaminated stormwater. This is a superfund cleanup project of a former petroleum refinery. Contaminated groundwater collected in an interceptor trench is, under normal operations, pumped through a bag filter, mixed with KMn04 to oxidize sulfide to sulfate and trivalent arsenic to pentavalent arsenic, passed through a dual media (anthracite/manganese) green-sand filter, directed through pH adjustment and passed through an activated alumina filter to remove arsenic, fluoride and other pollutants prior to discharge. Discharge from outfall 001 is about 28,800 gallons per day. Purge water form the on-site monitoring wells is either dumped into on the two "inactive" ponds (stormwater pond and North Burn pond) or incorporated into the interceptor trench. Stormwater collected in the "inactive" stormwater pond and North Burn pond is filtered and discharged to the Walnut River at Outfall 002 and the filter back-wash goes back to stormwater pond/North Burn pond. The dike separating the ponds has been breached creating common water among the two ponds. This discharge is about 288,000 gallons per day for about six weeks per year. All wastes generated by the operation of the treatment plant (activated alumina,

bag filters, greensand, PPE) are disposed of as nonhazardous wastes to an approved disposal facility. The storm pond is used as a bioreactor for bioremediation of the containment solids. The proposed permit includes limits for oil & grease, total organic carbon, total suspended solids, dissolved oxygen, benzene, total arsenic, total lead and pH. Monitoring of effluent flow also will be required. Annual monitoring of volatiles and semi-volatiles also will be required. The permit contains a schedule of compliance requiring the permittee to make both operational changes and capital improvements necessary to meet permit requirements. The permit requirements are pursuant to the Kansas Surface Water Quality Standards, K.A.R. 28-16-28(bf), and Federal Surface Water Criteria, and are water-quality based.

Article 2.—PROCEEDINGS BEFORE THE BOARD

Amendments to K.A.R. 94-2-4, 94-2-19 and 94-2-20. K.A.R. 94-2-4 is a general regulation that provides the filing procedure and time limits for appeals and applications filed with the board. K.A.R. 94-2-19 sets forth the rules that govern facsimile filings, and K.A.R. 94-2-20 sets forth the rules that govern electronic mail filings. The amendments to K.A.R. 94-2-4, 94-2-19 and 94-2-20 provide that filings with the board must be accompanied or followed by any applicable filing fee.

New regulation K.A.R. 94-2-21. K.A.R. 94-2-21 is a new regulation that sets forth: (1) the filing fees; (2) the process for paying the fees; (3) an exception for someone who by reason of poverty cannot pay a fee; and (4) a process by which someone may petition the board to reduce or waive a fee for multiple applications or appeals.

Economic Impact: The proposed filing fees are expected to generate from \$150,000 to \$300,000 in funds per fiscal year to be used by the Board of Tax Appeals to help offset its costs of operation. It is anticipated that the proposed regulations will have minimal to no economic impact on other governmental agencies. Businesses and individuals that appear before the board may be required to pay a filing fee upon filing their application or appeal with the board. However, the cost to each individual tax-payer is minimal.
